CIRCLE

Shape used to create Illusion.

Circles are graceful and their curves are seen as feminine. They are warm, comforting and give a sense of sensuality and love.

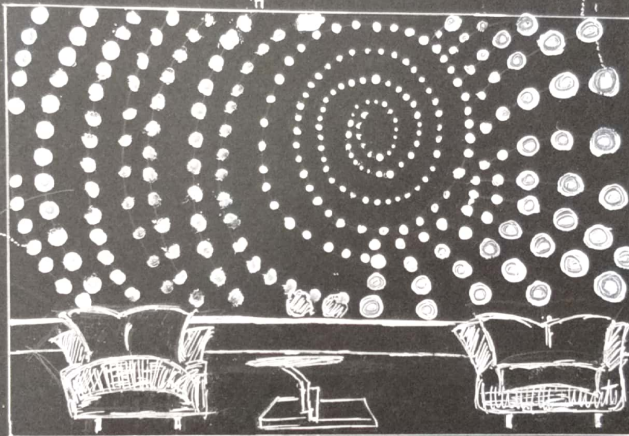

UNITY:

to make elements in a composition appear to belong together when each element has a clear visual relationship to one or more elements, the composition is unified.

HARMONY:

Harmony can be described as sameness, the belonging of one thing with another.

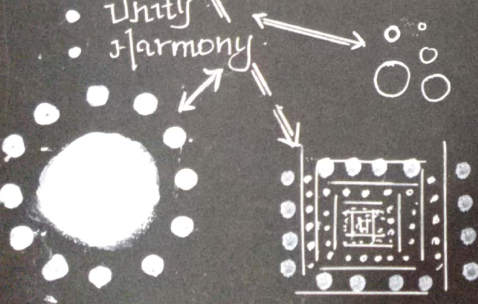

The repetition of design elements like colour, texture, shape, and form is one of the easiest ways to achieve harmony to create a composition.
