CHIEF'S ROOM DAY EFFECT

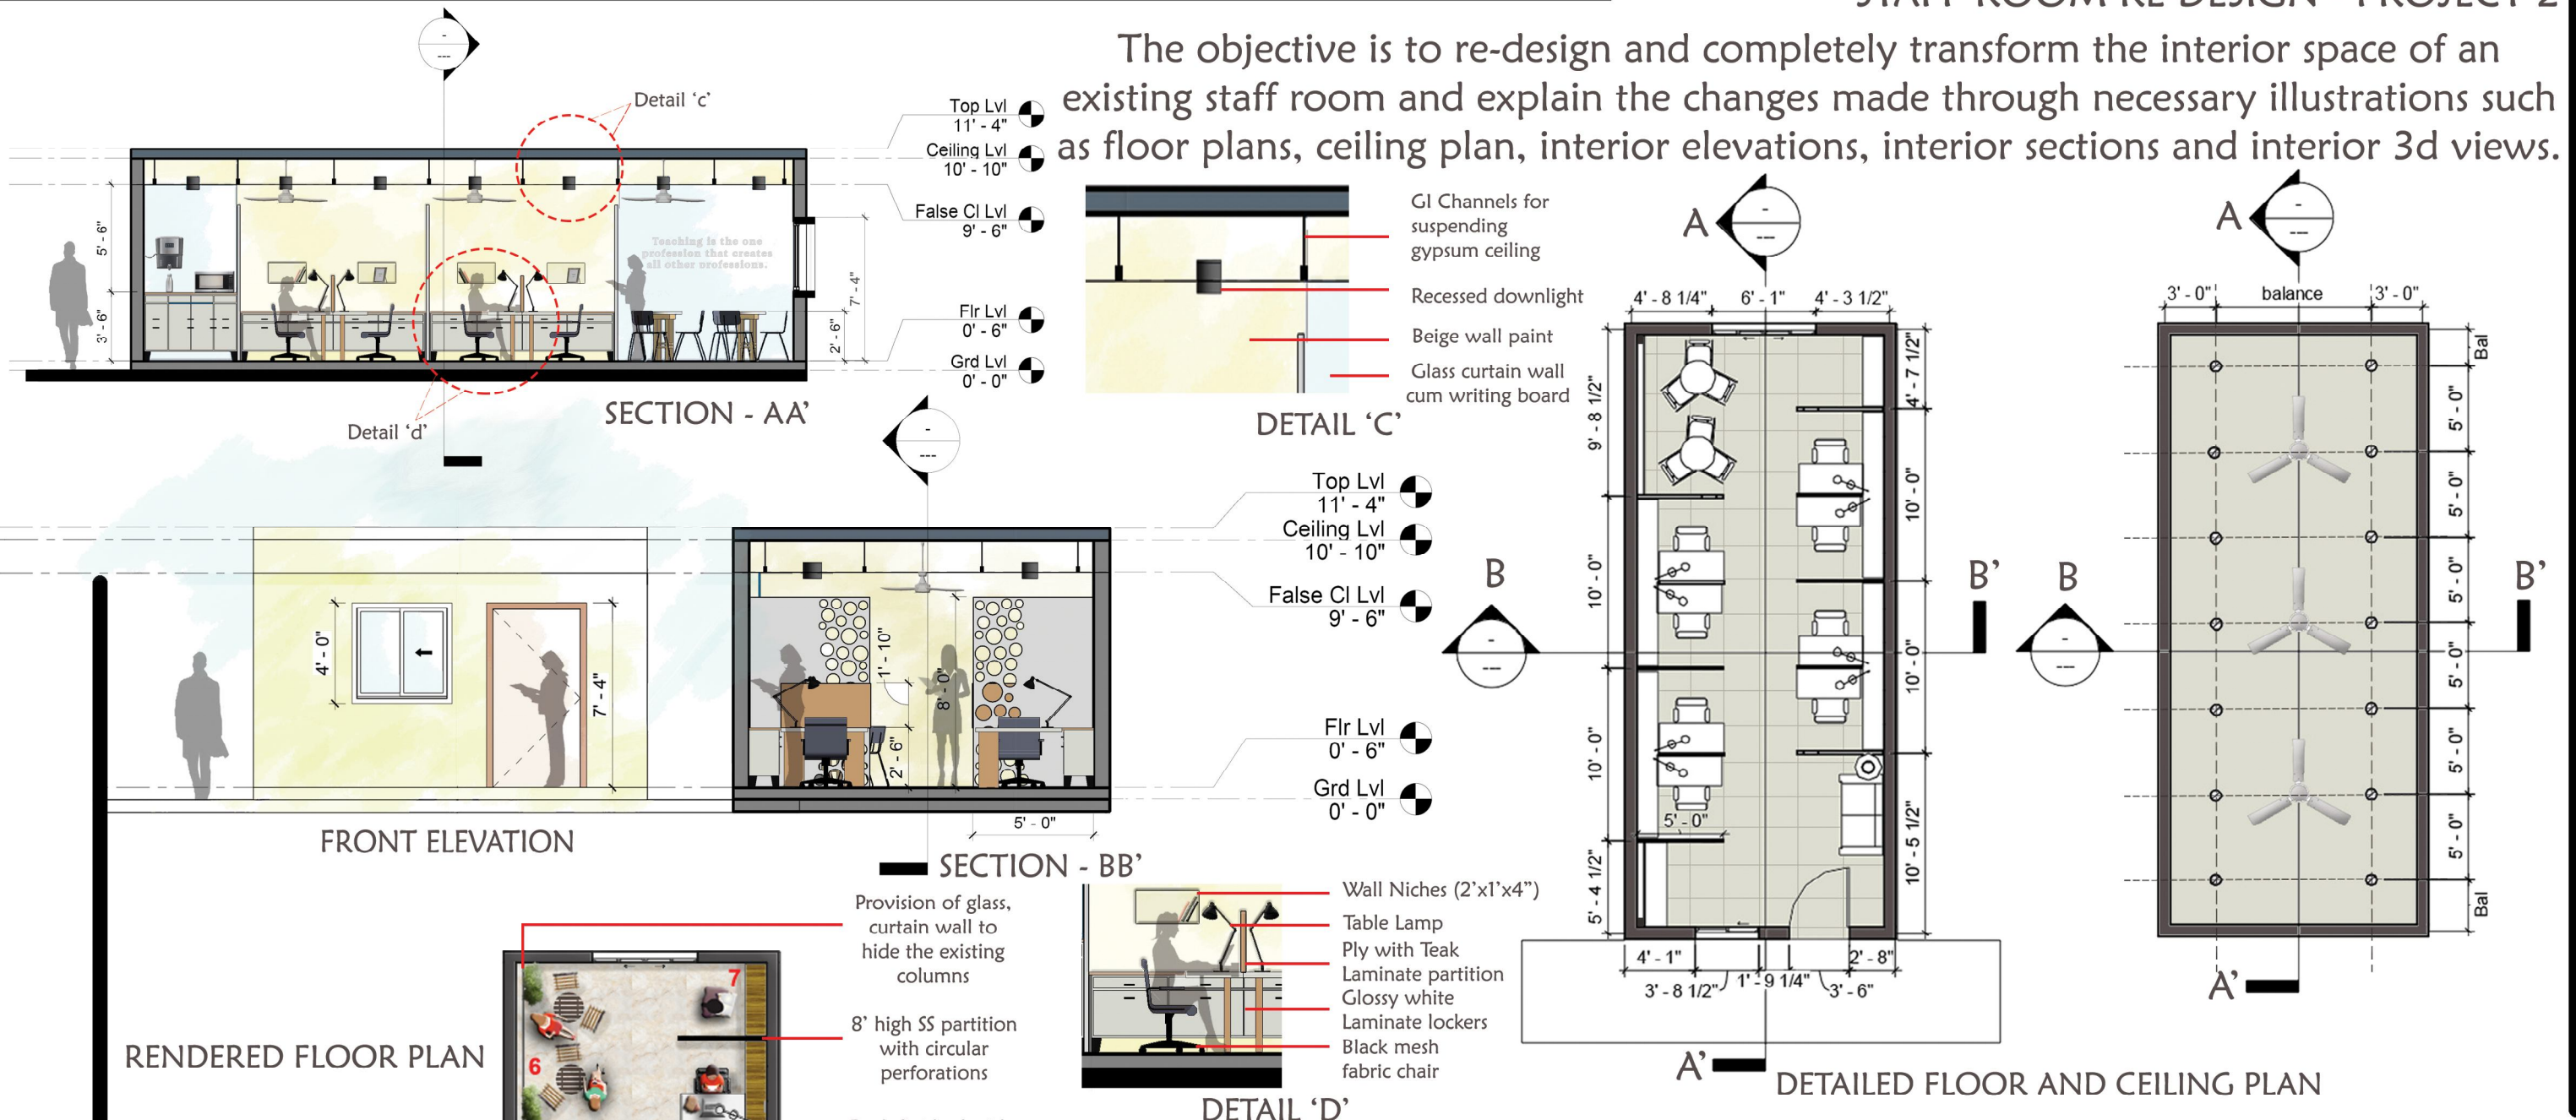

WALKWAY TO  
CHIEF'S ROOM

CHIEF'S ROOM NIGHT EFFECT

The objective is to re-design and completely transform the interior space of an existing staff room and explain the changes made through necessary illustrations such as floor plans, ceiling plan, interior elevations, interior sections and interior 3d views.

Provision of electrical points are only on one side of the room. Wiring is left unattended which is considered to be unsafe

Provision of Lockers are improper and insufficient

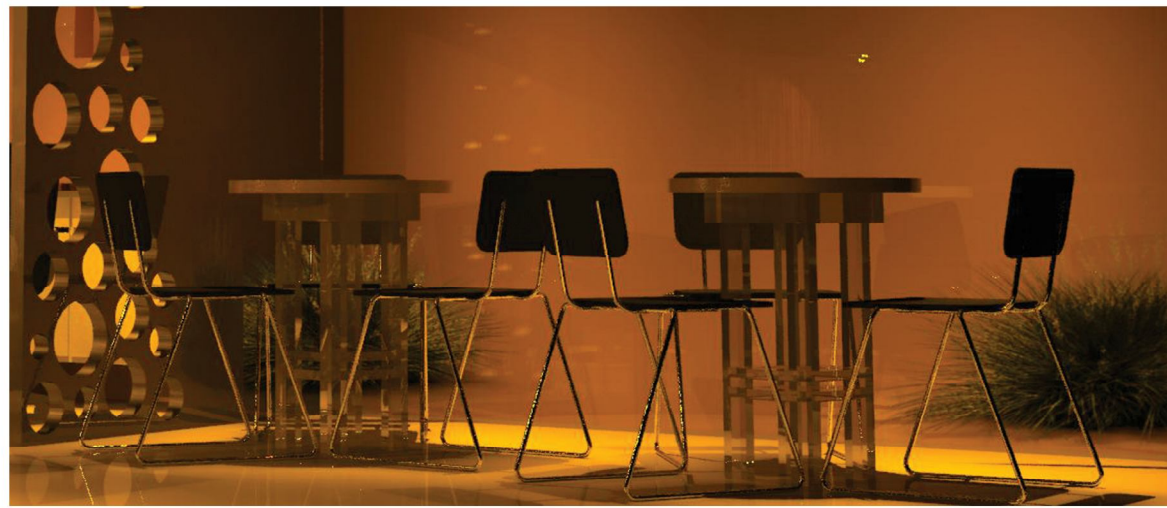

Beams and columns are not visually appealing.

No proper dining space provided

The staff room is meant for 8 staff members. Thou there is ample of free space left unused, there is no proper personal space provided for the staffs. Also the desks and chairs needs to be redesigned so that they get their proper relaxing space.

EXISTING STAFF ROOM IMAGES

STAFF ROOM RE-DESIGN - PROJECT 2

Dining area with plants on either sides

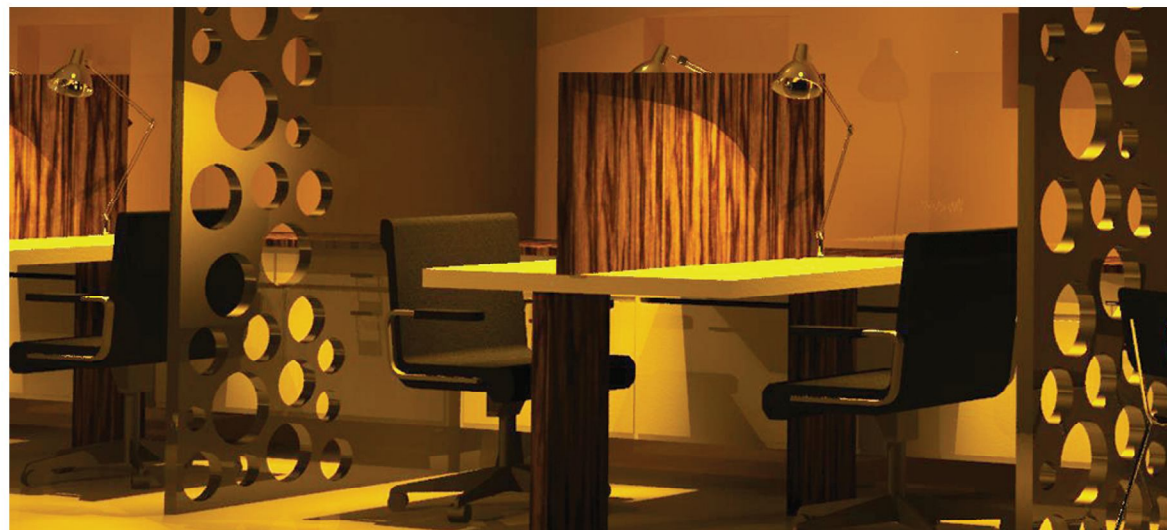

View of partition wall

Lockers and Desks made of ply with teak laminate and glossy white laminates

Furniture Used

Closer view of staff's cabin

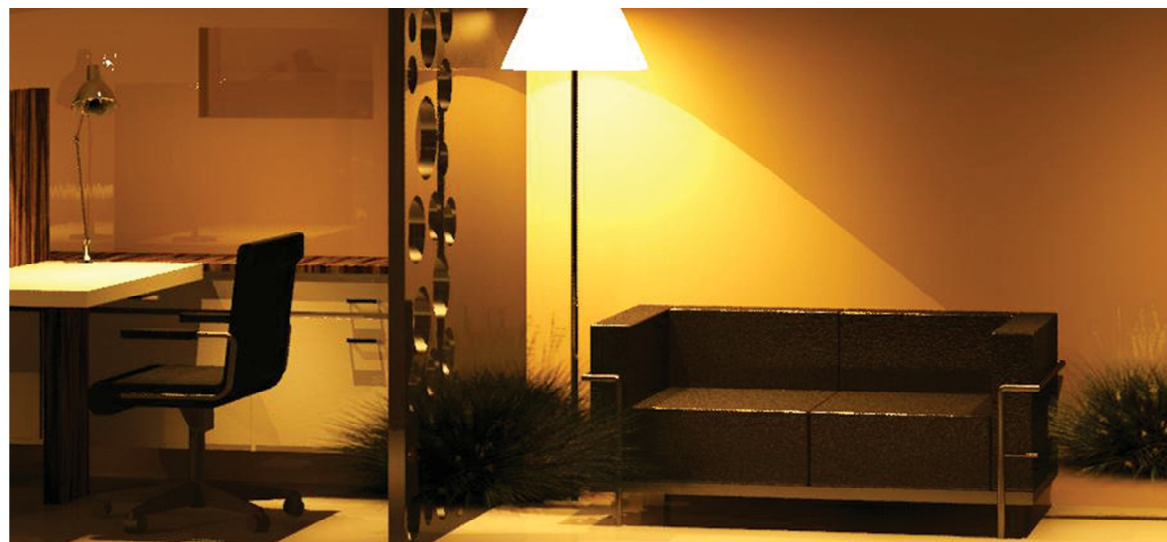

8'x5' high SS Polished partition wall with randomly cut circular perforations for light to pass through with no hinderence during day time

Partition Used

Staff's Cabin with walkway

Waiting area with artificial Lighting

Dining and locker area

Table Lamp, SS Finish

Floor Lamp, 4' High

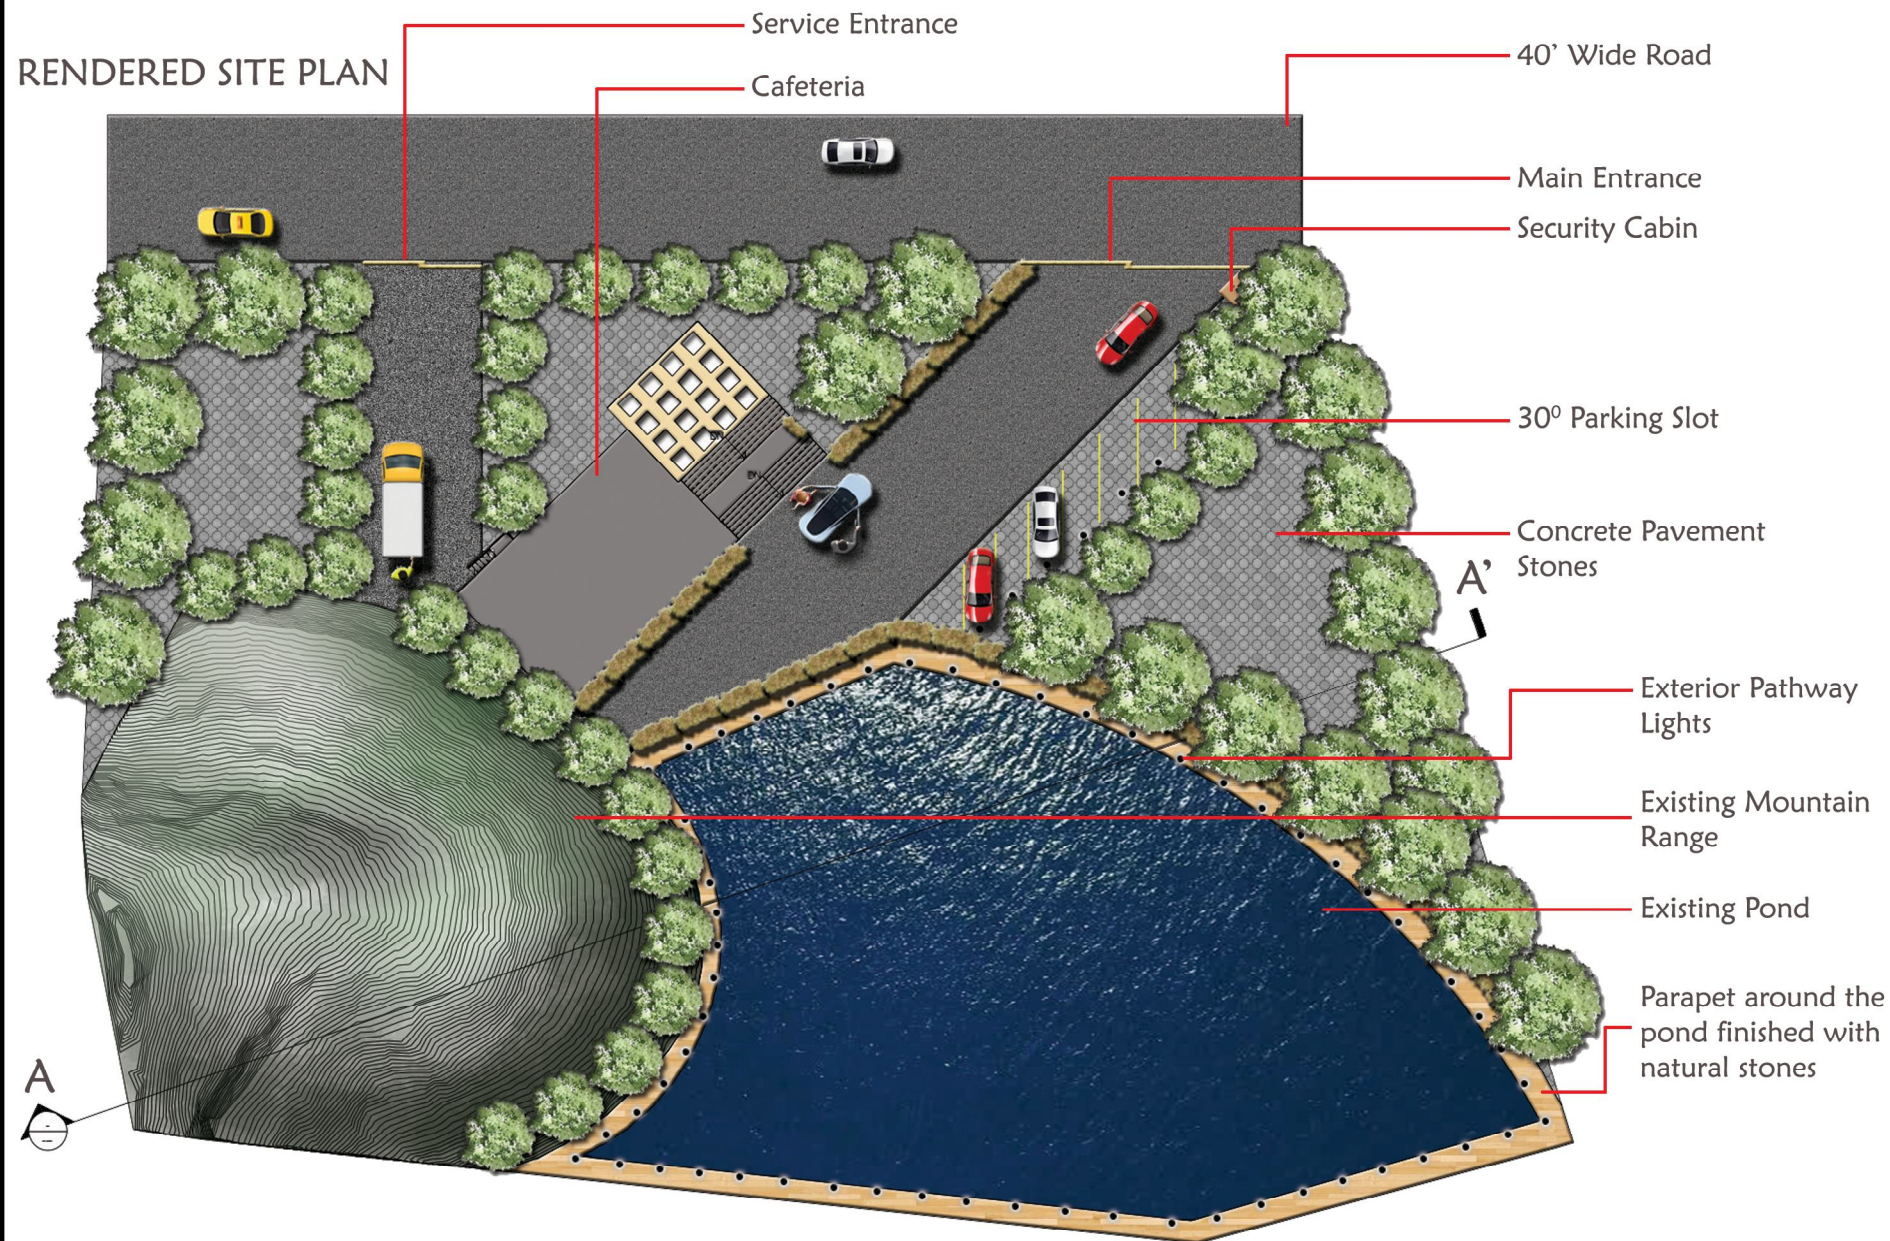

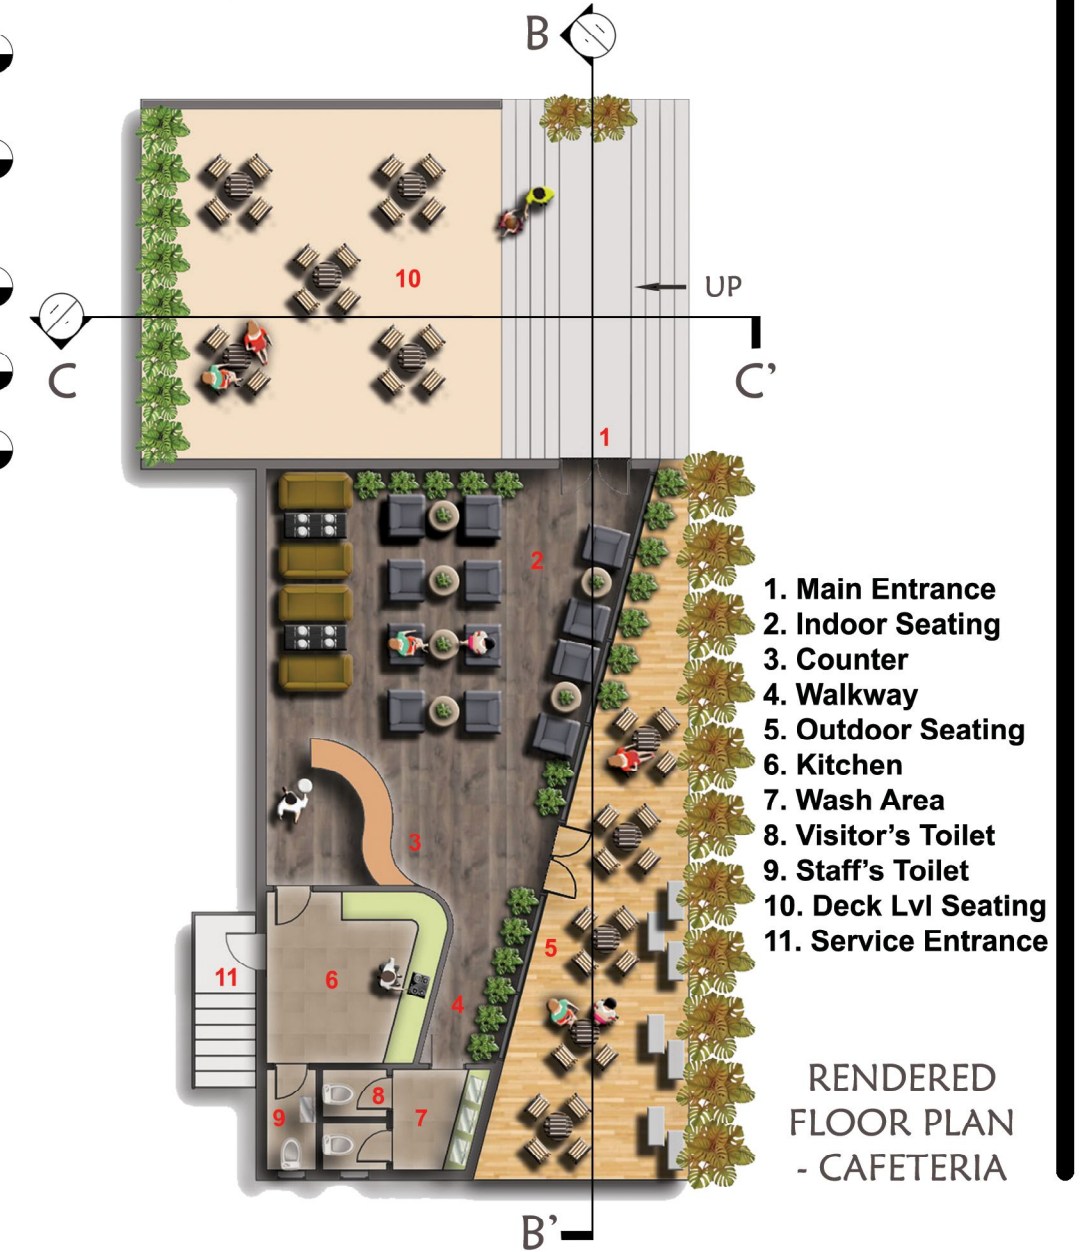

incandescent downlight, (Color - Warm White)

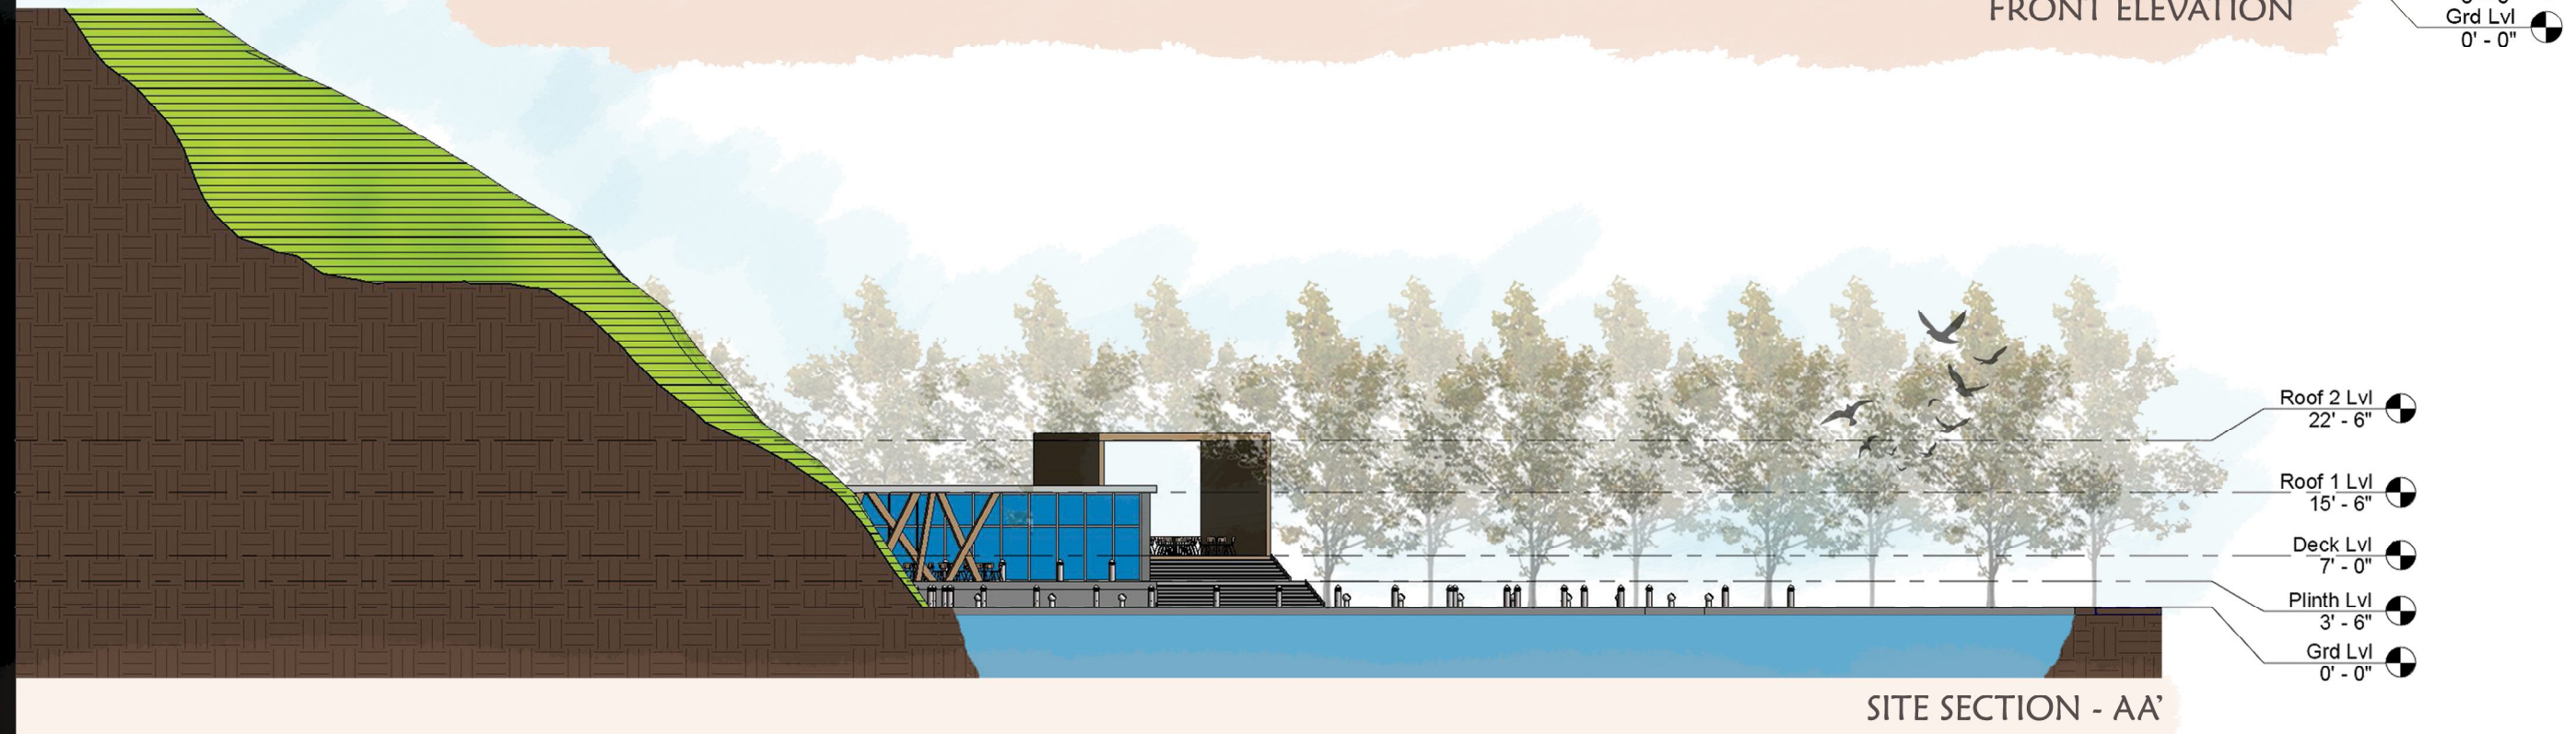

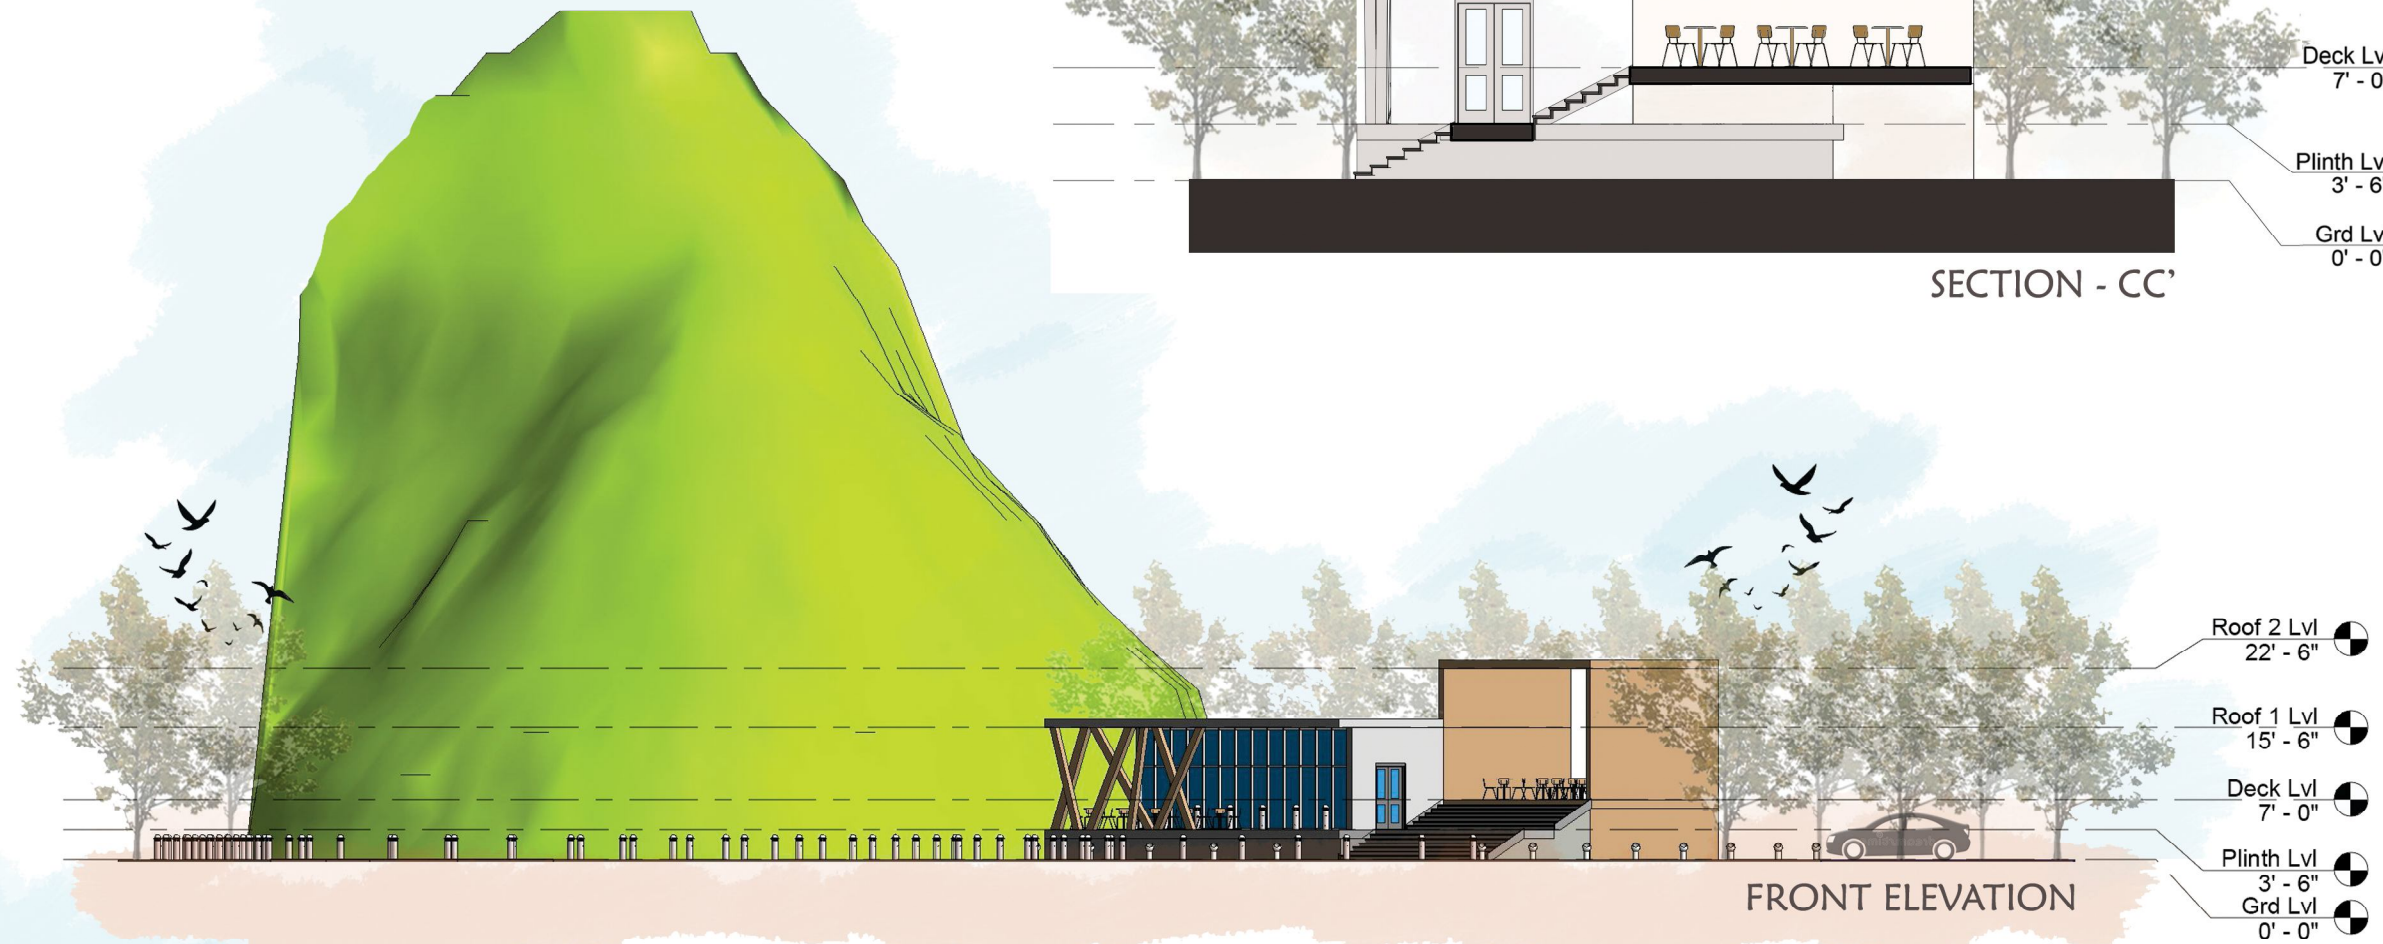

Ceiling Fan, SS Finish

Lighting Used

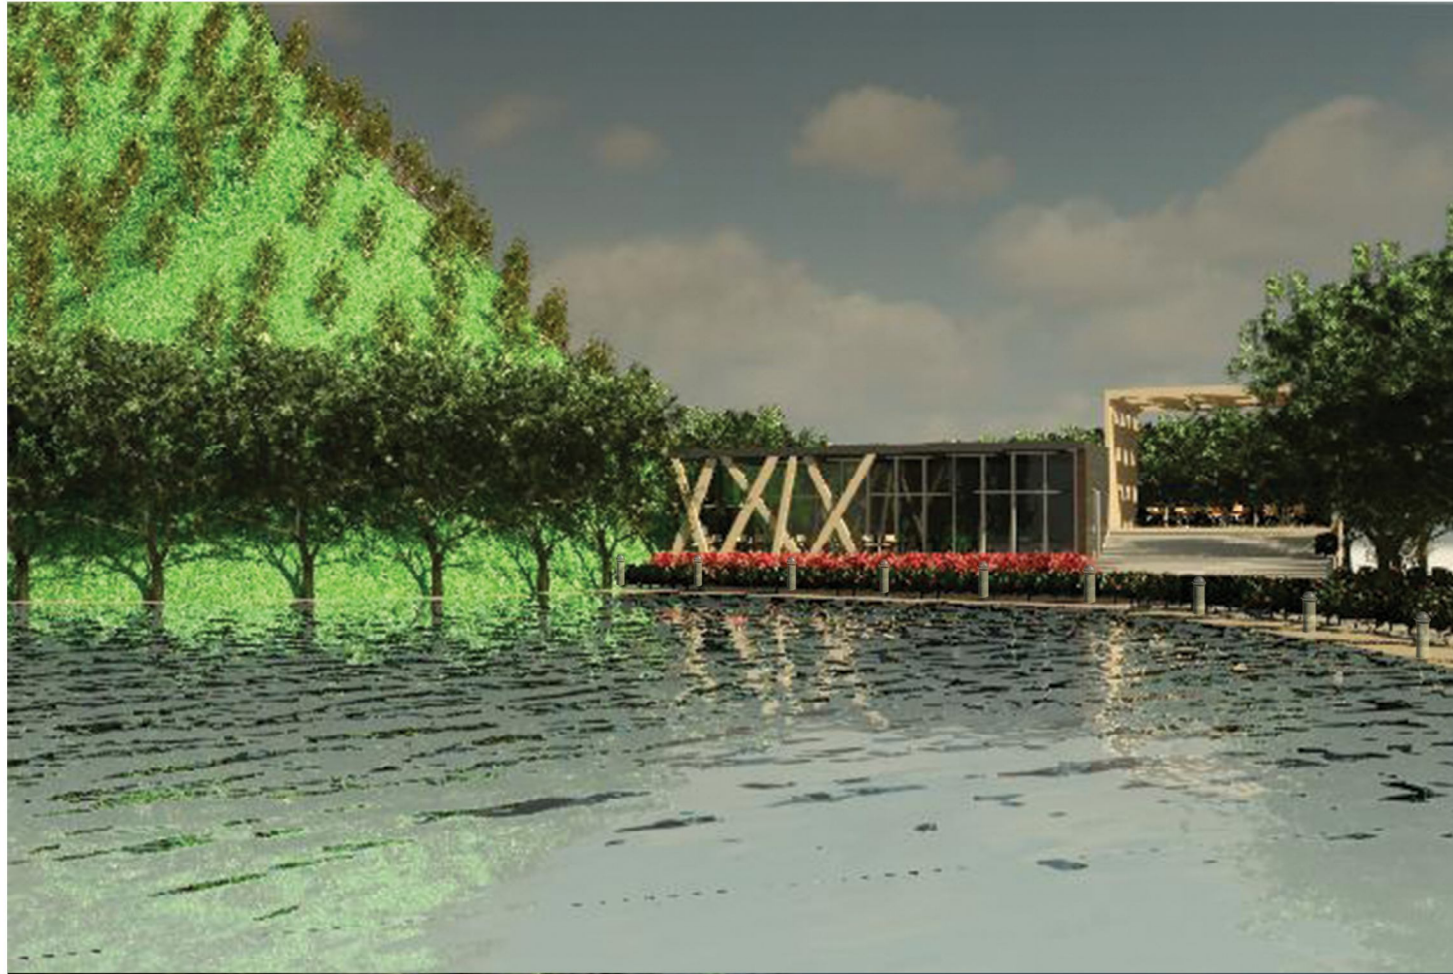

The objective is to design a cafeteria amidst mountains and pond and show the existing landform through necessary illustrations such as site plan, elevations, sections and 3d views.

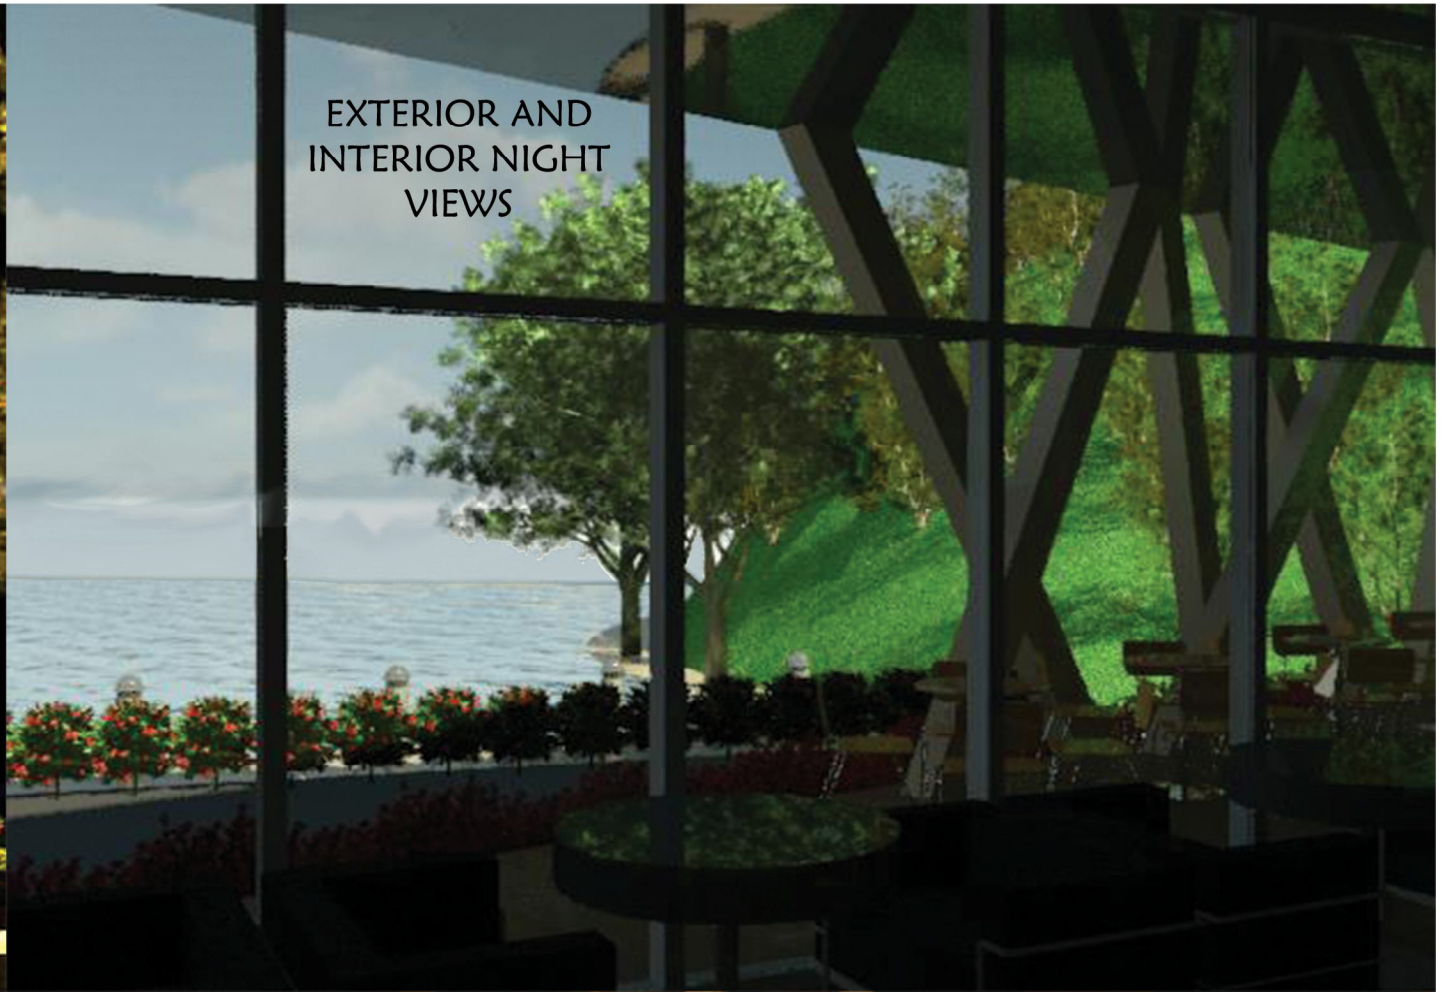

CAFETERIA EXTERIOR VIEW

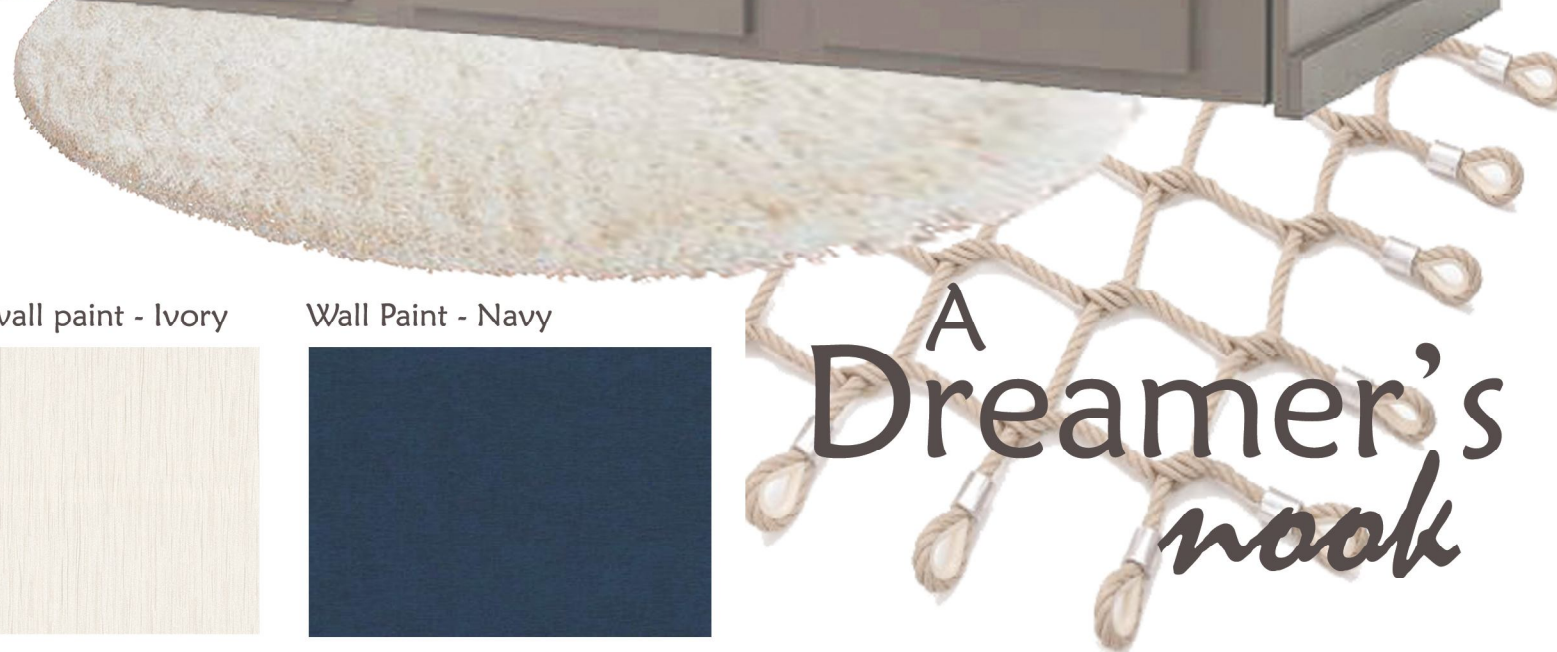

An approach towards the combination of beauty, simplicity, and functionality with a scandinavian touch. All of which is achieved using subtle colour walls, wooden floor, modern furniture and a lack of clutter.

Pale grey wooden tiles

Textured wall paint - Ivory

Wall Paint - Navy

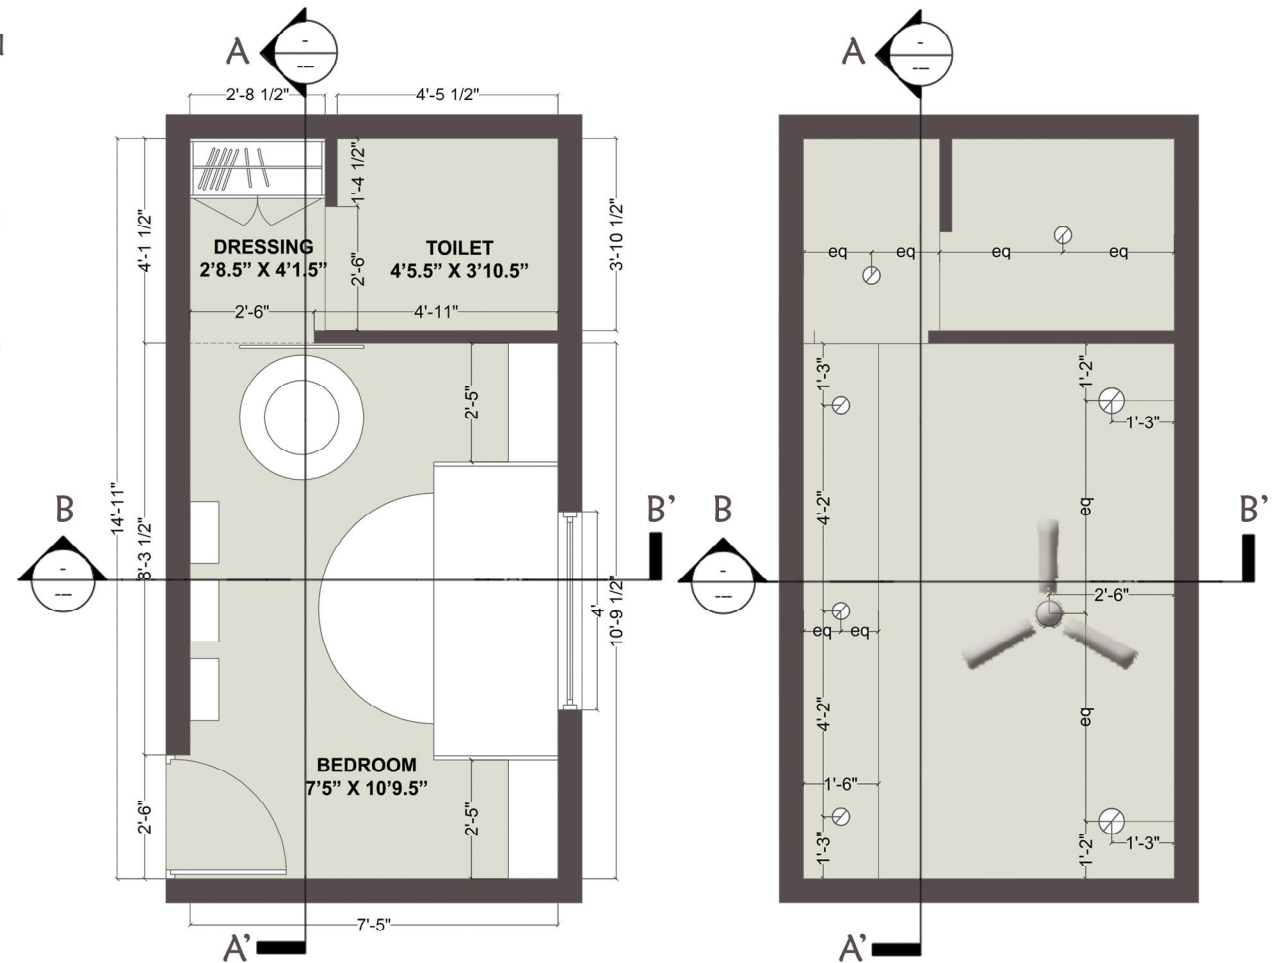

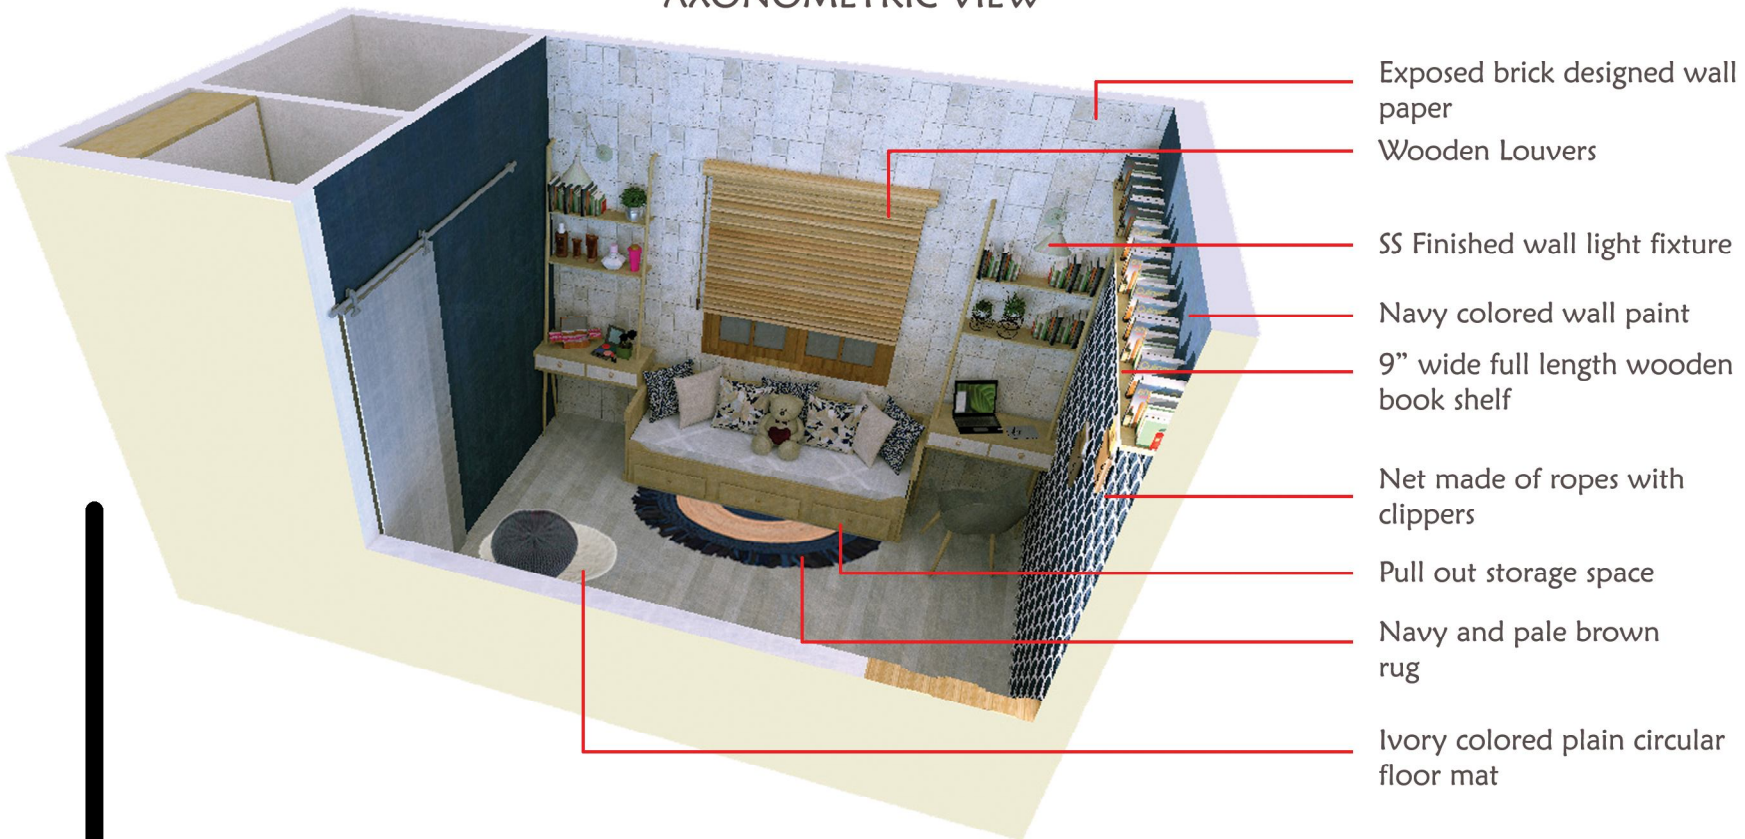

A Dreamer's nook

# BEDROOM INTERIORS - PROJECT 4

The objective is to re-style the interiors of an existing bedroom and evolve the concept with mood board and explain the changes with necessary illustrations such as floor plan, elevations and 3d views

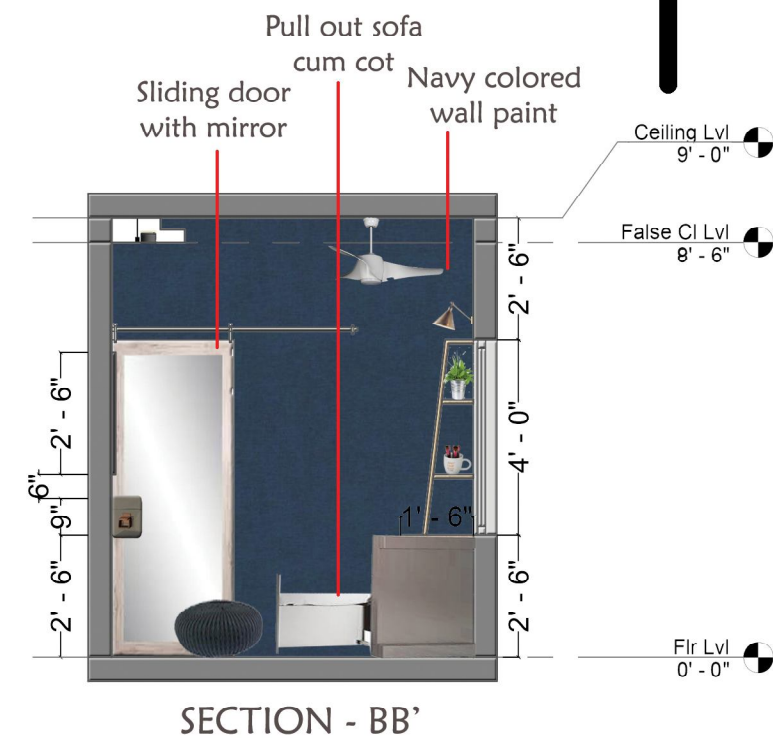

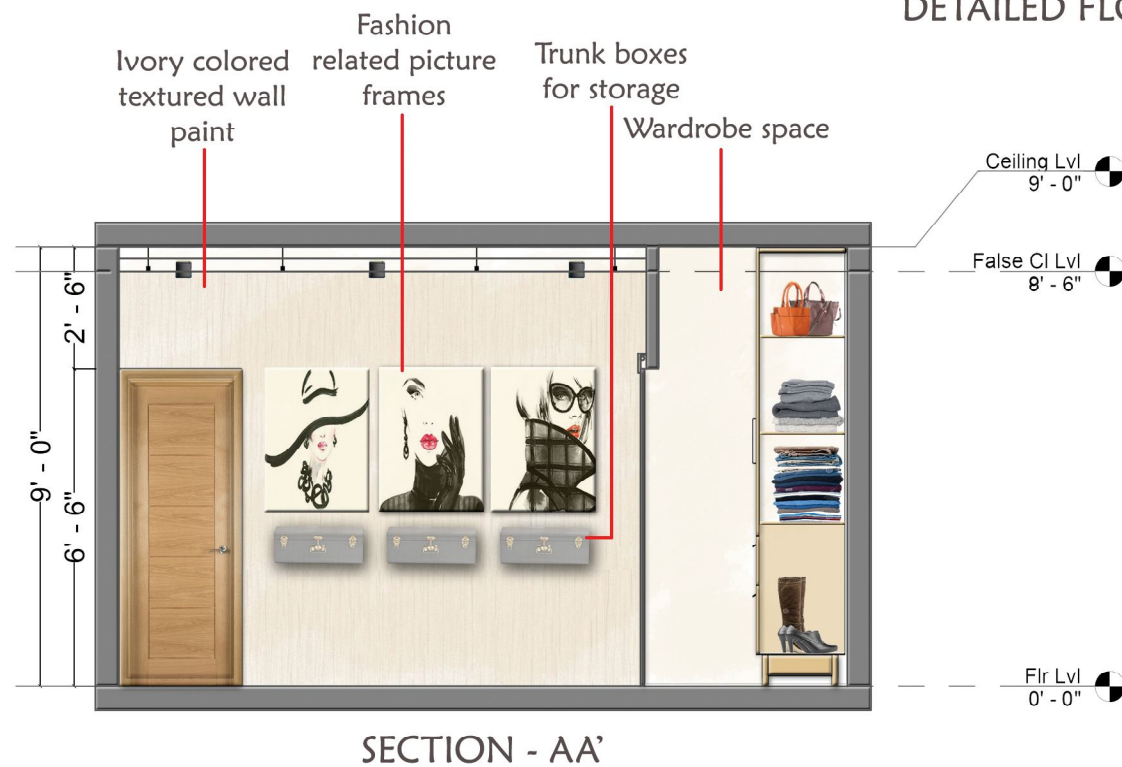

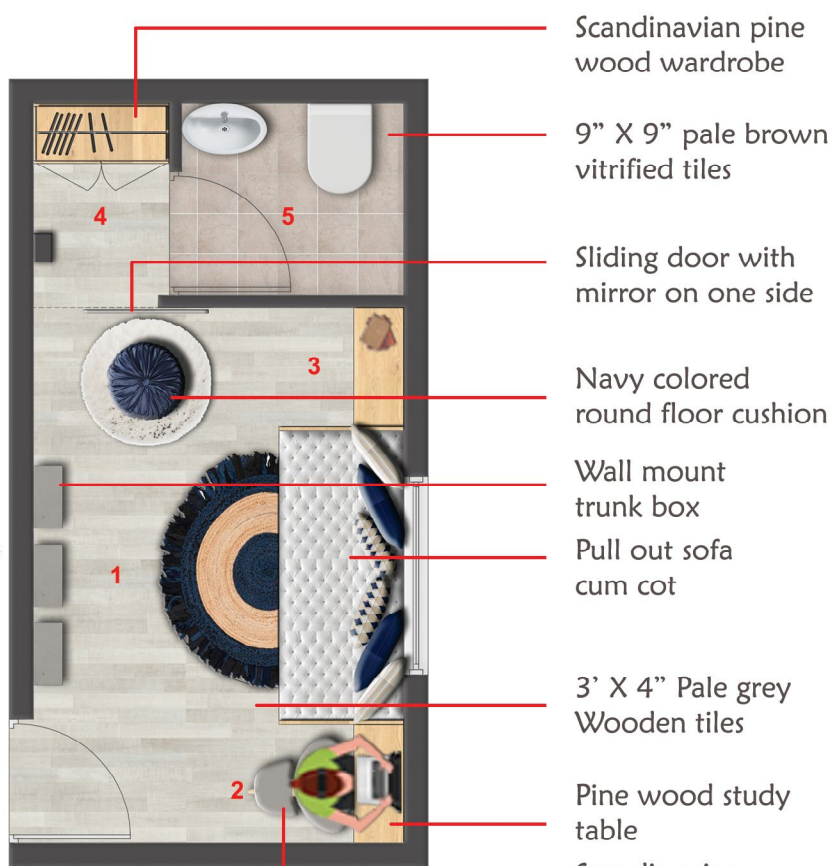

AXONOMETRIC VIEW

DETAILED FLOOR AND CEILING PLAN

RENDERED FLOOR PLAN

- 1. Bedroom
- 2. Study Unit
- 3. Dressing Unit
- 4. Wardrobe space
